GENERAL REMARKS

School Activities: Y. C. S.; Legion of Mary; St. Vincent de Paul Society;

Every effort is being made to keep to reasonable numbers in the classes.

The teaching of science is difficult because of inadequate facilities - one single room for such purposes.

The youngsters in the primary classes were keen and responsive - it was a pleasure to examine them. Their friendliness and respect made a deep impression.

Numbers in the Sub-Leaving and Leaving could be embarrassing in 1963. I cannot but commend the efficient way in which the school is run and the evident zeal and devotion of the staff.
